Index of Authors, Subjects, and Titles

by Lloyd Zeager

This section of the index lists in alphabetical order authors and articles, book reviews, book reviewers, and contributors of queries, tips and research notes. For articles the name of the author is followed by the title of the article. For queries and research notes only the author's name is given. Books reviewed appear under the author's name or, if no author is indicated, by title. One or more subject headings are given for each article, query, and research note but are not given for book reviews. Personal and corporate names appear in lower case, and subject headings appear in upper case. A few cross references are included to assist the user of the index.

For each entry the date of the issue and the inclusive page numbers are indicated. For example, "Ja 1989 8-12" indicates that the item is found on pages eight through twelve of the January 1989 issue. Months in dates of issues are: Ja = January; Ap = April; Jl = July; and Oc = October.

Every Name Index

by Lola M. Lehman

Intended primarily as an aid to genealogical research, the following index lists every name (approximately 28,500) appearing in *Pennsylvania Mennonite Heritage* articles, content footnotes, queries, photograph captions, maps, and diagrams from 1988 through 1992. All females are indexed under both their married names and their maiden names when known. Nicknames, titles, and equivalent or anglicized versions of names in the articles exist in parenthesis after the first name.

In a few cases book or article authors whose names occurred in footnotes were included when in the judgment of the compiler they were unusually significant for genealogical research purposes. With this exception names of book reviewers and article authors appear only in the index of Authors—Subjects and Titles. Asterisks refer the user to a corresponding note in the Errata section for that entry. Months in dates of issues are: Ja = January; Ap = April; Jl = July; and Oc = October.
