| Amazing Professor. Wish him the best for the future. |
| He went into detail with every concept and made it veery easy to learn. |
| Home works and quizzes were helpful to better understand economics |
| n/a |
| He's a great instructor, very informative and helpful. |
| The Professor was extremely helpful and taught the material very well. This class was amazing and I felt I learned a lot from this class. |
| Hamid was a wonderful professor and I would definitely take a class under him again! He was so helpful & kind. Thank you! |
| I really enjoyed how hands on Hamid was this semester. He made sure we fully understood the content before each exam and gave us plenty of time to complete and make up for assignments. |
| great professor and nice guy. the was super understanding and did everything he could so his students could succeed. |
| COVID-19 Comments |
| Good idea to have half the class show up on Tuesday's and Thursday's |
| n/as |

The class is split up into two groups, meaning one day we were supposed to be in class while the other is online, and the other day we are online while the other half of the class is in person. He gave us the opportunity to remain fully online if we wished. This was SO nice as I am trying my hardest to stay away from large groups. I was able to stay fully online AND listen to the same exact lectures as the in person students. It was great!

he made it easy to understand and follow even though online

Distance learning comments

One of the best professors I have had in a while. Made everything easily accessible and did a great job with the exam reviews!!

Had a good experience.

i ran into multiple issues with trying to access the online lecture. Most of the time nothing would load, or I couldn't hear anyone. However, this teacher is incredible he gives his students 100s for just doing the quiz after every lecture, that is going to help out a lot of students in the long run. Overall a great class.

Thank you

Super helpful and always answer our questions. He was very informative and it was easy to understand the lectures. Even though it was hard to switch to completely online classes, the professor did really well! I would take his class again.

I enjoyed having Professor Noghanibehambari. He taught the material very well.

Very helpful teacher when it comes to exams and quizzes and homeworks! Had a hard time focusing in class because of his way of teaching and writing notes

Considering that this semester has been a bit wonky with COVID restrictions, I think he did a great job of working with the circumstances to make class as effective and helpful as possible! He has been very understanding and has done his best to make this class less stressful.

Thorough professor that breaks subject down to its basic level to ensure understanding.

Awesome teacher, helps and answers every question!

Summer 2020, ECO ECO 3320 Managerial Economics Section 201

Comments instructor or course

Great instructor, Great class. I have had him in the past and he is very adequate and consistent with his teaching.

Hamid is an EXCELLENT teacher whilst being a student himself. I found it very interesting to be in his class and see how he works with mathematics so that I could apply that to my self. He is extremely smart and cares about the overall success of his students.

It has been a pleasure learning from Professor Hamid, I have learned so much from him.

Great instructor, teaches well and is willing to help students comprehend the topic better.

Loved this class.

Very professional and clear with his accent and lectures. Honored to be in his class.

He was a great teacher that wanted to make sure his students understood the concepts.

Great course, better teacher. I am so thankful that he was my professor.

Hamid was an excellent teacher but a lot of the time, I feel that his in class lectures lacked a bit of explanation, but he was always happy to answer all concerns and questions in office hours or over email.

He was very effective in going over how things were supposed to be worked out. And his test reviews were amazing!

I like the course very much. It is really important to me. The exam were kind of easy.

Good

He is awesome and cares about his students.

The instructor really does care about his students and is willing to work with them.

great

very good instructor is exceptionally knowledgeable in his subject and excels at delivering the information.

| |
|--|
| Professor Noghanibehambari made sure that when he taught difficult concepts that the entire class understood it even allowing us to reach out to him for extra assistance when needed. |
| Professor was very detailed and covered every step of the topics. It was very helpful and slowed paced. |
| Very helpful and informative professor. |
| This instructor was a great teacher and thoroughly explained the course material. He was willing to work with students that did not understand and truly cared about all of the students. I had previously hated economics because of the high school instructor that I had and enjoyed this class because I was able to grasp the material. |
| Hamid is an excellent professor and wants to see his student succeed. Highly recommend. |
| This professor is excellent! Really wants the students to understand each topic! |
| He was a very good Professor and would often take questions and thoroughly explain the material. |
| Overall, the instructor was excellent. He taught the material at a good pace and ensured that each of his students understood before continuing on. |
| Great |
| The instructor is amazing. Absolutely would take any other course taught by him. |
| Excellent, down to earth man who knows what he is talking about. It's easy to see his passion for Economics in each lecture that I attended and also in the live online lectures once the world really started taking the Corona Virus seriously. I would easily recommend him to any other student. |
| Sometimes he is hard to hear in the back, but he does move around if you have a question, great teacher really enjoyed him. |
| COVID-19 Comments |
| N/A |
| I enjoyed going to this class and engaging, It was the first time In a while I actually started enjoying my academics. I would have enjoyed to finish the class like regular, but I understand the University was trying to be cautious and comply with orders. |
| Hamid handled the change in modality just fine. |
| He did a good job transitioning from person to online. |
| He kept us on a schedule with lectures taking place online |
| Very helpful and understanding. |
| Hamid made this shift so easy for us students and actually still prepared us for all the assignments and exams we had to get through. |
| He helped ease the transition and really helped the class understand the information by his online lectures. |
| Professor Hamid handled it better than any other professors I have. |
| I am okay how we are going online. Professor is doing fine. But I believe we could have finished some more chapters than what we did. |
| NO |
| The instructor had continued lectures via Blackboard and was very flexible. I greatly appreciated this. |
| great |
| Professor Noghanibehambari was still very helpful from the change to online classes and is one of the best Professors I had the chance to learn from. |
| N/A |

The move to online was smooth and very understanding!

The class worked well with it.

Was very understanding and helpful

This class did not change much even with the change in modality. We had live class at the same times each week and were able to interact with the instructor in the same way that we would have in person. I appreciated that this instructor made the experience smooth and similar to in-person class.

Greatly enjoyed his live lectures during this pandemic. Excellent work.

Nope

Comments instructor or course

Excellent teacher. Careful and thorough through explanations.

Good Intro Econ course. Professor Hamid always helpful with his office hours and extra help. Would recommend

Great teacher who genuinely cared what the students had questions and wanted us to learn

Great course, the professor has a light presence and the class size was a little overwhelming however utilizing his office hours made it so much easier to succeed.

Attendance shouldn't be mandatory since all of the resources need to succeed in this course can be found on blackboard.

Made sure everyone knew what they were doing.

good class! should make the homeworks due at specific times so we get them done.

The instructor was vertical helpful

He would talk very quietly even though we are in a large lecture hall. It was often hard to understand what he was saying. Overall good teacher.

The quizzes really help me when it comes to equations

Overall, Mr. Noghanibehambari was just an okay teacher. He covered the materials way too slowly. By the time we should have covered nine chapters, we only completed five. I haven't taken the final but I'm very worried that there will be material on it that we haven't covered yet. He did a great job explaining the concepts but spent way too much time on it. Probably wouldn't recommend him to anyone needing microeconomics.

Test reviews in class helped

Wants you to pass an understand this class, very helpful explaining the difficult material

Good teacher, gave us all the materials we needed and prepared us very well for each test

He was a great professor and I enjoyed his class. His reviews for the tests were very helpful and he was, for the most part, always available to answer questions or go over any material that was not made clear in class.

Could be louder and have more annunciation. Besides that, the times I asked questions, he gave helpful responses so that I could learn. Very, very good.

Nice guy, good teacher.

Great guy, hard material, but he explains it well

Economics was a very good course to take with Hamid. He excels at what he does.

Good explanations and very flexible instructor.

Overall Hamid is a great teacher and is still learning how to teach effectively but is getting the content displayed well

Not very much heads up on exams. He only tells you the class before.

Good teacher. Willing to help when needed

Hamid did a great job of breaking down the information to the point almost anyone could understand it. He certainly provided material for us to prepare for the tests.

Comments instructor or course

The instructor is very knowledgeable about the subject he teaches and makes the course interesting and easy to follow

he did a great job

great teacher

good, caring teacher

I think if you were a little more exact about your answers during the lecture that would help a lot. For example, you had given the class a practice quiz and when going over the answers you would explain the problem and how to get to the answer but you never exactly said the answer which was a little confusing for some of the students who didn't have a grasp on the material yet. Other than that you are a very fair and interesting instructor and I had a great time in this class, just be sure to fully explain the answers for the non eco majors.

Very good at explaining material and making sure we understand the material.

My instructor used numerous visual examples, which were helpful. He provided definitions, charts, and graphs. He also communicated all lessons effectively by applying concepts and theories in various practical applications. I would gladly take another class taught by him and I would recommend him to other students. The only suggestion I have is regarding the equipment. I think the classroom could use a better supply of dry erase markers.

| Comments instructor or course |
| He gives really good examples |
| Even though the class was a 50 minutes, it was a great class. The teacher was great, he was patient and explains well the materials. I would take him again in the future. |
| N/A |
| Contrary to his appearance Professor Hamid's english was very good. Of course he had an accent but he was very easy to understand and he taught the class very clearly. I had an excellent time in his class. |
| The class was fantastic. The exams were well made and portioned appropriately. The instructor was funny, knowledgeable, and willing to help students. The class material was informative and made the class enjoyable overall. I would strongly recommend this instructor to any other student. |
| Mr. Noghanibehambari was a great professor, and explained the Economics in this course extremely well. I have learned lots from him. |
| None he was good |
| He's a very nice guy. Really cares about the students. |
| Great teacher who is always willing to help, very understanding. |
| Very organized instructor! |
| Nearly every session, I had difficulty staying focused, but the fault could be on me. |
| I wish the graph and chart examples were encouraged to follow along with during class. And I would've liked if the professor would call on people to answer. My classmates seemed to not pay attention and a lot of them would just leave once they sign in. I think having students be called on or in class activities would encourage the class to learn more. |
| Hamid is a great lecturer who walks through every idea thoroughly and always checks if students are understanding. He is approachable and willing to work with kids regarding any issues, and is very transparent with grading. |
| Professor ensured all students understood valuable information but would always review for those that did not completely grasp the concept. |

Giving us information about the course on the first day set the stage for the semester. The review sessions were extremely helpful and Hamid is a great, supportive instructor.

not loud enough, no test reviews

I genuinely enjoyed this class with Hamid. He really enjoys and understands what he is teaching and makes it a point to really prepare you for the tests. He is very approachable too if we had questions in class. Overall he is an amazing professor!

The instructor presented engaging lessons with a positive and inquisitive attitude that promoted students to participate and think more about the lessons. I would suggest this instructor to another student for this course.

The chalkboard in Holden makes it almost impossible to learn. I feel Hamid could have made the material easier to understand from us and put it in his own words.

Good professor, conveyed information clearly

I loved this teacher by far my favorite

He did a great job explaining the material and reviewing for exams.

Best Teacher I've ever had

Teacher taught well, good class.

Professor was great!!!

| great class |
| He needs to project a little more so everyone can hear him and put notes on blackboard so students have some kind of access to the ones they missed |
| Great professor who really takes the effort to understand his students and where they're at in his class. Explains everything thoroughly and makes sure to ask if anyone is having trouble understanding. Would definitely take another class he teaches if that were the case. |
| Great teacher |
| The instructor is very knowledgable and knows a great deal about the subject that he is teaching. Not only that his passion for the course really enhances the overall learning experience in this course. Highly recommend this instructor when taking this course. |
| He's alright. Although, I don't think he properly proofread the homework cause there were some repeat questions that were like the exact same. This class is just easy I barely paid attention in lecture and still have gotten good grades on my exams. |
| He is very hard to follow and understand what he is trying to convey in class. I believe having a powerpoint would be very beneficial for him in trying to explain things. He does not seem very clear in explaining general concepts. He was very good at providing examples on the board. Making reviews for the class would also be very beneficial as it is hard to gain anything when he is just reading review questions out loud. |
| Professor did not speak English and I couldn't understand anything he was saying. Made it very hard to pass the class, I even stayed after class to see if he could clear up somethings. |
| He made sure we knew what we were doing before proceeding to the next subjects. Had no issues understanding him excellent instructor. |
| I wish the instructor would have used powerpoint slides and taught from the book. |
| He did a really good job with explaining the concepts and making sure we understood the material. I really enjoyed his class this semester. |
| Excellent Professor |
| The lectures are very difficult to keep up with and kind of sporadic. The professor obviously knows the material, but not how to teach per se. |

N/a

Great course, great instructor.

Professor Hamid is a great professor!

I felt like I constantly was having to teach myself in this class. Our projector stopped working after the first week of class. So many times I was unsure of what my professor was trying to teach us. For as much as students pay for tuition, I am surprised that a university of this caliber would deprive its students of this learning tool.

I learned a lot and he was a very helpful instructor

The instructor is highly intelligent in terms of the material taught. When he lectures, you feel like the book is speaking to you in human form. However, as it is his first course to teach, he could do better in terms of interaction with the class. When there is high interaction with students, it puts the students in scenarios where they are almost demanded to follow the lecture.

Hamid is a great Economics Professor.

In each lecture, he goes over problems that will effectively prepare you for the tests. It's clear that he cares about his students.

This professor is amazing and uses tons of examples. Most of the time the lessons are focused on the use of graphs and some other charts. The material is not very hard to learn. The test/homework/quizzes are not that challenging. I recommend this class if you need the credit

Comments instructor or course

Hamid is a great professor, he knows his stuff when he teaches. there should only be 3-6 of these that matter out of the whole class and this is one of them. he does examples on the board so you know how to work the problem. Cons... he is quiet and he talk to the wall most of the time but he is great at what he does. once he gets to know (me) who his student are he is more out of his shell. He communicates with the class great letting us know when things will be up. if I could I would take more classes with him great grad student. ????? He will do great things. A+ (economics is not my major or my strongest subject, I really enjoyed his class)

Professor Hamid is a good teacher he makes his points clear and the topics are easy to understand.
