M16 Extreme Ride and Shine

Used for: XX months Price: £9.98 Info: m16extreme.com

I was dubious about using this because of the lairy name - a 'extreme' polish implies it's an aggressive cutting agent that'll have you down to primer in no time. But it's not. Instead, it's very similar to more expensive stuff like Autoglym, cutting through grime and giving a deep shine without stripping paint. Good value.
