

Newborn, Baby, Bump and Family Portrait Sessions

Hello and welcome to our portrait session packages. An hours session at your home or on location is £30 per hour in the Bridgwater area (including parts of the stunning Quantock Hills). You then simply add on what you'd like in print or in digital format. Areas a bit further afield like Brean Beach or Kilve can be arranged. Exmoor (Valley of the Rocks, Lorna Doone Valley etc), Dartmoor, Cornwall or up to the Cotswolds can be booked for travel costs. Areas further require a bit more planning but if you're going on holiday somewhere amazing and know you want amazing photos there with a professional, english speaking photographer get in touch! Maybe you're planning on asking that special someone to marry in an incredible place and you'll need amazing photos of that! Give us a shout to chat about it as we'd LOVE to be involved! With wedding, portrait and commercial clients stretching from the Southwest to the Midlands, Oxford, London, Kent, Essex, North Wales, Highlands of Scotland, Greece, Spain, Thailand, Singapore, Malaysia, Hong Kong and North America, we will essentially travel anywhere you wish to capture your perfect portraits.

NEWBORN SESSIONS

Newborn sessions are usually booked during pregnancy. They are then taken within the first few days of arrival simply because they don't stay all squished up and newborn-like for long and very soon start to stretch and find their hands and feet as I'm sure you're aware. The newborn sessions are usually captured at your home in baby's room, living room or your bedroom or a combination of all three. I'll bring a large beanbag and blankets. Every baby session is different and is very much lead by what the baby will tolerate. Some are happy to sleep through the whole thing and some want to know what's happening, which can limit some of the shots that can be achieved which is why we advise to give them a big feed just before I arrive!
