

# You are gods

*English Transcript – Emerson Ferrell*

Welcome, beloved. Very good to be with you today as we start a new year. I'm really looking forward to what the Lord is doing in our lives, and inside the hearts and minds of all you who have been so conscious of the love of Christ in your life. And as we take the this journey back into Him, where we began, so that we've never left spiritually, but mentally, if our lives are not experiencing the joy and the prosperity and the fullness of Christ, then somewhere along the line we've become more attached to the material and lost our connection to the Spirit. So all of these meetings that we do together is to make us more conscious of where we are.

And if we know where we are, then it's a lot easier to get to where we want to go. So that's the purpose of us coming together and me showing you some things that the Lord is teaching us. And one of the things that I want to share with you today is when Jesus spoke about us being "gods". That's a very important understanding because it says in Ephesians that, "we are in Him before the foundation of the world". And we've said over and over again that the foundation of the world is on the fear of death. That is the foundation of this world.

And the world is what we create. And God's kingdom is totally different. And one of the ways we can understand when we're living in His kingdom is that we're no longer attached to an identity in this world's system. I've said before that "how we think, how we feel, and how we act creates our personality". And that personality is what creates our personal world and our reality.

And all of those thoughts, all of those feelings, and all of those behaviors are the result of us becoming more attached to the environment, this physical nature, this material that God created as the Earth, and less connected to our spiritual identity in Christ. Now, I'm going to say that so many ways that you're going to get it because it's very, very important. Look at what I've written down here. "When your body becomes the mind, is when your feelings are your thought". That's what generates your thoughts, that puts all of your mind in your body. So "how you feel" creates the way you think.

And then if we become addicted to our feelings and addicted to emotions, then more and more of the energy that we're created with as a spirit being gets lost in trying to keep our bodies healthy. Because all the energy that God has given us as spirits keep our bodies in divine health. So many people are out of balance because their emotions and their emotional attachment to the things of this earth have created so much stress in their life that they have absolutely drained their spiritual energy and their organs are failing. So they start to concentrate and spend more energy thinking about their feelings of sickness and disease. And they hear doctors give them all kinds of diagnosis and they go and they look up, "what are the words this doctor is saying?"

And then they start focusing and thinking about all of these conditions. So all the energy that you're created with is absolutely depleted from you focusing on the wrong things. So that's how the body becomes the unconscious mind. And you were created to have your thoughts and your heart united. So that when you think and feel, it's connected to the spiritual dimension.

# You are gods

*English Transcript – Emerson Ferrell*

Think about that. When your heart and your mind are in unison, in wholeness, in oneness, your thoughts and feelings will be united and you will start pulling the spiritual energy back into your body. And you'll start releasing all of that penned up energy in your body that's been stored because of your emotional addictions, and it will start leaving the body, freeing up the body from all of the diseases that you've accumulated from your thought life. You have to think about this. You have to understand it.

You have to be conscious of it. You have to be conscious when your thoughts are more focused on the material than they are the Spirit. And when I say, "Spirit," I'm not talking about some ethereal thing. Spirit is when you're conscious of this physical dimension. When you're conscious of this physical dimension, you are in the Spirit. You're no longer running as a program.

Let me give you an example. They did a study in Harvard some years ago. They took about 25 men and they put them in this group and they said, I want all of you to picture yourself 22 years younger. They measured their finger length. They took all of their biometrics, their heart beat, their IQs, their breathing, all of these things. And then whenever they were together, they had music playing from 22 years ago. They had pictures that were going on back then. They had all these different things going on that reflected that "22 years from the present day". They would play sports, they would do all kinds of things interacting with one another, but consciously they were being reminded, "picture yourself 22 years younger."

So at the end of two weeks, they came back to these men and they took the same metrics again. Their finger lengths were longer. Their heartbeats were lower. They had grown in height. Just by pretending to be 22 years younger, their biometrics changed. Their heart and palpitations and the respiration, all of that changed.

So if you're having a condition today, who are you pretending to be? You have to ask yourself, "Am I a victim to the environment or am I creating my victimization from the environment?"

So whenever you run up against the wall and you feel like you just can't do it because you've got this condition or you've been told, "this is your limitation," stop and think, why do you picture yourself with the condition that has been diagnosed for you, instead of picturing yourself as a divine, healed, human creation of God?

It's up to you. We have that choice that has been given to us. And look at this verse. I want to show you something. Look.

In **John 10**, we'll start with **verse 33**.

*The Jews answered Him, saying, "for a good work we do not stone You, but for blasphemy. And because You being a man, make yourself a God." Jesus answered them, "Is it not written in your law? I said you are gods."*

# You are gods

## English Transcript – Emerson Ferrell

Jesus is quoting the law that these Jews were going to stone Him for. Well, where do they find that?

Look in **Psalms 82:5-7**

*“They do not know, nor do they understand. They walk about in darkness.  
All the foundations of the earth are unstable.  
And I said, you are gods, and all of you are children of the Most High,  
but you shall die like men and fall like one of the princes.”*

This is written in Psalms, speaking about a “condition” that God created man in. He created man as gods. That was part of the imagery that He gave man. And in the beginning, when He gave them that ability, their imagination is what created their problem.

After they fell in the garden, after Adam fell and disobeyed God, their imaginations became corrupted. He gave them the ability to change their conditions and the world around them by believing and thinking. That same condition is still available today. We are still created in the image of having the ability to create from what we believe and what we think.

But what we think and what we believe, from so many years of wrong conditioning, has created this position and condition that we're in that makes us feel like we're victims or that we have no choice and we have to wait for Jesus to return and save us from ourselves. But that wasn't how God created us. And that's why He said to you, we are *“in Him before the foundation of the world.”* You have to understand what that means, because if you believe from your senses that this is your world and you have no ability to change it, then you will be a victim the rest of your life. You will have to wait on something else to happen to change your condition.

But if you believe that you were created in the image of God with the ability to change your environment through understanding what God's given you, then you can start to change your condition. And that's why it's so important to understand this spiritual dimension. And that's why I have been using the language of the quantum, because Quantum Physics is different than the Newtonian Physics. And the Newtonian Physics is what most people use their senses to believe.

This world is their reality, and it works fine in this dimension: the cause and effect, the right and the wrong. The Newtonian Physics absolutely will show you how you can fly a plane from Jacksonville to Los Angeles and tell you how long it's going to take and how many hours it'll be and all the conditions because of the physics of this dimension. That's cause and effect, and that's Newtonian Physics.

But the realm of the Spirit acts more like that of the Quantum Realm. They cannot predict what's going to happen because your mind interferes with the material. The mind and the matter are so closely related that it does not act like the three dimensional realm.

# You are gods

*English Transcript – Emerson Ferrell*

It's a spiritual realm. It's a realm of all possibilities. It's a realm where when you think about something, you create a collapsed wave. There's waves and there's particles. When it's not a matter, it is a wave of energy.

We are waves of energy. This material body that we possess, that clothes this spirit, is not who you are. It is a design of God so that He can show you the power that He's willing to give each and every one of us to create a world where people can be transformed into the true image of God, into the true reality of the kingdom of God. But that's always up to the person. So when we look at this Earth and we see that it has a magnetic field and we look at our bodies and we see the relationship between the Earth and our body, we realize that this magnetic field that protects the Earth is the same magnetic field that's around this physical body, and it's created from the Spirit.

We spoke about this earlier. So if people that want to go see the Aurora Borealis (what that is, it's the magnetic field around the Earth). When the sun produces all of those photons, those solar flares, when they get to the Earth, right to the belt of the Earth, they explode. And that's the magnetic field that's around the Earth. The same way that that protects the Earth is the same way God created that magnetic field around us to protect us.

So as long as we're focused "heart and mind" on the presence and consciousness of God, we become invincible to the material world. You can live in divine health. You can absolutely live "above" the situations on this planet. They don't have to affect you. But the minute you leave that position and start to be involved into the situations of this planet, into the politics, into the health care, into the education, you start getting involved into this dimension, that magnetic field begins to shrink and so does your ability to prevent disease and problems inside of your thinking, and problems inside of your consciousness. You become distracted much more easily.

So when God said, "You are gods," He's showing you that you can increase that field of magnetic influence so that now you're going to start to bring into your sphere more and more of the power of God in your life. I believe today some people that are watching this video will absolutely be healed from the disease they were diagnosed with. I believe right now, if you will focus on what God has done for you and just start thanking Him for His power in your life, start thanking Him, show Him the gratitude as if "that thing has already happened." Don't look around and see if you still have the disease. Just begin to believe and thank Him for what He's done in your life. Thank Him for that sickness being taken away from you.

Thank Him for that situation in your life being rectified and that lack of money or that lawsuit that's coming into your life, where someone is going to sue you or someone is going to take advantage of you, begin to thank God that He has taken care of all of your needs. Thank Him. You don't have to experience it physically to draw it from the spiritual dimension.

You draw it from the spiritual dimension by you being so thankful and grateful for what He's done in your life. And when that becomes united with your heart and your mind, that influence that you have starts to

# You are gods

*English Transcript – Emerson Ferrell*

draw from that invisible realm known as the Spirit. And what was impossible is possible and what was absolutely a lifethreatening disease, disappears because this dimension is not who you are. This dimension doesn't influence who you are unless you believe your physical body is more important than your spirit, and what happens in this realm is more important than what Christ has already done.

You see, when He overcame death, He destroyed the foundation of this world, which is the fear of death. So when you understand that you can be thankful for what He's done, you can give Him thanks, you can be so grateful and so absolutely thrilled that whatever is going on around you is not happening to you. Do you understand? When Jesus said, "I'm in the world, but I'm not of it?"

That's the reality of who we are. We're in it, but we're not of it. You're only of it when your feelings are addicted and your emotions are addicted to the energy around you. Because what happens, the energy you were created with starts to leave your body and be connected with this dimension. It says in Psalms, *"you were created as gods, but you will die like men."*

How do men die? They die physically. They die connected to this Earth. But you as a god, never die. You are a spirit.

So everything that gets you excited and emotionally attached to this physical dimension is because you've lost your connection to that spiritual realm where all the power of God is. All the authority of this planet resides, and it's inside of each and every one of us. But you have to wake up every day and you have to be conscious of what Christ has done, period. When you're conscious of Him overcoming death and you're conscious that "that life is in you," then the next step you take will be going further into that revelation and understanding or being distracted into what's going on around you and how your senses are dealing with the situations around you. You'll get more attached to the image that you've created or the image God has given you.

And when He says you are, "in Him before the foundation of the world," that means you make the decision to leave. He didn't put you here. He gave you an earth suit, but that doesn't mean your spirit left. Doesn't it say in the Scriptures that "we are in the heavenly places"? What does that mean?

That means we are ruling and reigning with Him. And the minute we understand that and understand why we have that authority, why we have that ability, then we're no longer looking for distractions in the physical realm.

Now, I don't know who I'm speaking to, but I'm speaking to somebody today. I know that somebody out there is desperate for some kind of deliverance or some kind of salvation or some kind of relief from all this stress that they have put on their bodies and thinking about. And God is speaking to you right now.

He's telling you, you're not that physical condition. You're not that person that's reacting to those situations. That's not who you are. That's an identity you've chosen, just like those men at Harvard. They chose to be somebody else, and they were 22 years younger.

# You are gods

*English Transcript – Emerson Ferrell*

Why? Because they believed it. Why do you want to believe that “whatever condition you've been told you have is reality”? The choice is yours.

And all the authority that is in you from the beginning in Christ “is there” so that you can change your condition, you can change your focus, you can change your reality. You're not who you think you are until you continue to be that identity.

Every day you wake up, you have to be conscious of what Christ has done. And if you're not conscious of what He's done, get hold of the Scriptures and read from the beginning. Read what He did. Read how He overcame death. And as He overcame death, see yourself resurrected with Him. If you went to the cross and died with Him, see yourself resurrected with Him.

Life is not what you think it is, unless you're not attached to this world, then it's greater than what you're seeing around you. The people that are understanding their condition in Christ are not affected by the situations on this planet. You will become one with the Spirit of God, which has always been “in order and in perfect peace and harmony”. You see, the greatest power we have is understanding that relationship Jesus had with His Father. He knew His position. He knew His responsibility.

You have the same call when you know your position, which is in Him before the foundation of the world. Then you understand your condition is not what you've been told by somebody else. That's a personal relationship you have with Christ, and that personal relationship is greater than any church doctrine, greater than any religious teaching. It is a relationship between you and your Father, and that's what makes you an authority in what you say.

When Jesus said, “the words that I speak are spirit and life,” that's what you should be speaking, “spirit and life.” You see, if you notice the language of this dimension, it's not spirit and life, it's not. It's death, and Jesus overcame that.

So you're not part of anything that's being spoken of in this dimension. You're living in the realm where everything is possible. And you have to understand that whatever situation you think you are going through is not the reality of who you are in Christ.

I want you to get in touch with us and let us know what God is doing in your life. We want to hear from you. We want to know that you are ascending into Christ and you are understanding your relationship with the Father. Our goal at this ministry has always been to give you tools so that you can improve your relationship and change your condition. So we want to hear from you. We want to know that God is answering your prayers because your heart and your mind is one in Him.

So until next time, we send you love and blessings.
