IMPROVEMENT OF ABOUT 84%

Ultra Long Life

365–day ultra–long battery life; with USB charging port for emergencies

Features

Security

C–class lock cylinder, three–proof lock body; durable security is guaranteed, for your security escort
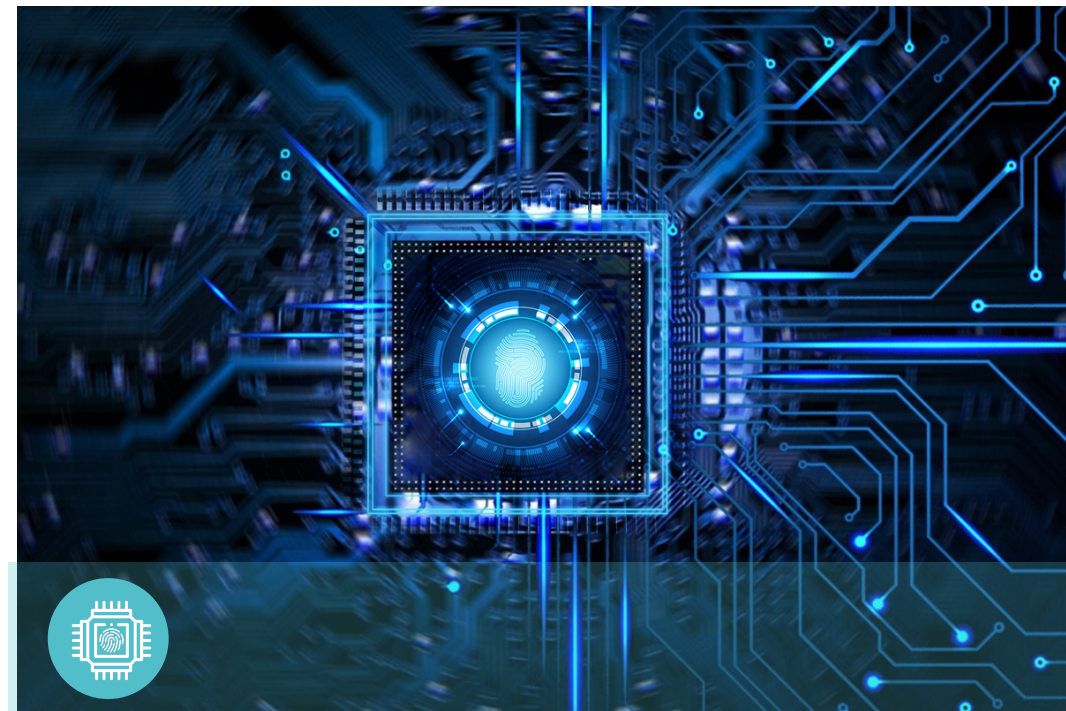

Four Ways To Unlock

· Unlocking methods include: APP control unlocking, fingerprint unlocking, password unlocking, key unlocking; so that you no longer have to worry about not bringing the key to the

Alert

Anti–pick lock, low battery, multiple incorrect code attempts will alert you; providing you with an extra layer of protection.

Features

Fast Recognition

With advanced chip, fingerprint identification is accurate and fast, no need to worry about recognition failure resulting in multiple failures ringing alarms

Undaunted By Interference

Adopting independent electronic program, shielding strong magnetic field interference, not afraid of small black box illegal unlocking

High Quality Materials

Titanium alloy material to build a smart door lock, long–lasting and durable

Remote override unlocking

Bluetooth Gateway Connection

This product supports the use of connecting Bluetooth
gateway to realize remote control unlocking

Bluetooth Mesh (SIG)Gateway needs
to purchase separately

Product Information

Model: N1TY

Material: Zinc Alloy

Color: Silver

User Capacity: 5 Administrators (Fingerprint/Password)
295 Normal Users (Fingerprint/Password)
Unlimited App Temperary Passwords

Power Supply: 4 AAA Alkaline Batteries

**Password Length:** 4 – 10 Digits

Static Power Consumption: < 30uA

Working Power Consumption: ≦200mA

Door Thickness: 38 – 50mm

Working Temperature: –20℃～70℃

Working Humidity: 20%~80%RH
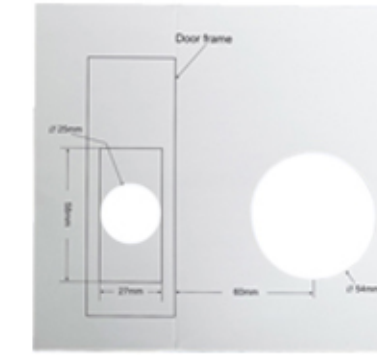

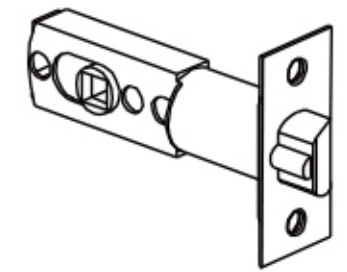

Battery life: One year of normal standby
